## Unbelievable Trucks on Substandard Oaks Roads

---

Catherine,

I am sorry to bother you, but this is getting ridiculous.

There are two home construction sites near my home in the Oaks. One is at the top of High Oak and the other at the end of Alto Oak. For some months we've had to contend with dozens (literally) of workers trucks parking along our substandard (narrow) streets, blocking through traffic, making it difficult to get around. We've coped with that, but now it is getting worse and there are even more trucks and workers — possibly a connection to the increase in crime around the Oaks?

Yesterday, three HUGE cement trucks drove up Hill Oak, blocking traffic and wreaking havoc with the street — which is already in very bad shape. These enormously heavy cement trucks have caused a noticeable additional crumbling of our already degraded street especially at the top of Hill Oak. They came and went all day yesterday until well into the evening. And, today even more are coming — now up the EXTREMELY narrow Spreading Oak Drive.

How are these construction companies allowed to bring these huge multi-ton trucks up our narrow and substandard streets? They are literally wrecking the streets!

I need some action. What can you and your office do?

Regards,

Kathy Richards  
Member Oaks Homeowners Association Board
